We design tiles to complement modern trends of interior and architectural design, yet pay homage to timeless classics as well.
There is beauty in strength. Our products are made and tested to withstand the rigors of everyday use even in the toughest conditions.
Our story began in 1995 when we opened our factory in Indonesia. Utilizing European technology we produced, and still produce, the highest quality porcelain tiles in the country. Our commitment to deliver the highest standards, and our team’s passion towards product and service excellence have been the cornerstones of Granito’s proud history. Every piece we place in your hands come with an ironclad guarantee of quality - because you’re worth it.
We continually innovate and invest in the latest technologies to create products that will improve your quality of living. The advent of digitalization in our manufacturing process continually creates opportunities to bring you an even wider range of designs without sacrificing quality or the pricetag. Our leading team of designers have decades of experience in the international field, and continuously pursue the latest trends around the world.

NOW DISCOVER WHAT MAKES GRANITO INDONESIA’S LEADING BRAND TODAY
SALSA
THE TIMELESS BEAUTY
EMPIRE

THE BOLD STATEMENT
MAISON

THE NATURAL CHOICE
AURORA

THE PERFECT FIT
OUR COMMITMENT
TO A GREEN FUTURE FOR INDONESIA

Granito is committed to protect the environment for future generations by taking action NOW.
As one of Indonesia’s leading porcelain tile manufacturers, producing over 3 million square meters of tiles every year, Granito continuously evolves its business processes to adopt global best practices concerning waste reduction, energy utilization and water management.

GREEN PRODUCT
ENHANCE LIFESTYLE
Granito has been certified as a GREEN LABEL Company, meaning we have passed strict requirements related to sustainability and environmental impact.
GREEN POWER TO RUN OUR PLANTS
REDUCING OUR CARBON FOOTPRINT

We use only natural gas, as opposed to more polluting choices of fossil fuels, in all our kilns to greatly reduce our carbon footprint. We also recycle residual heat back into our firing process to reduce our overall gas consumption therefore reduce our impact on the environment.

At Granito, we are now capable of recycling 100% of our waste materials back into the production of our tiles.
Water used in our manufacturing process is firstly recycled and then carefully treated before being returned to the environment, making sure that it can be re-filtrated back into the ground and safely to the homes of surrounding communities.

Packaging
You’re Buying Tiles, Not Paper Waste

We take great care in our packaging to make sure that our products are delivered safely to you. Unfortunately in the past that meant mountains of discarded boxes as a by-product that are rarely returned to the proper sources for recycling. By changing our packaging design to become more material efficient, and switching to raw, recycled cardboard, we are now significantly reducing the amount of waste generated by purchasing our products.
**salsa crystal**

Granito’s premium salsa crystal has a great legacy as Granito’s signature range. The enduring popularity of salsa crystal for over twenty years is due to its classic design and remarkable performance. salsa crystal features a natural, high gloss finish that is a result of direct polishing with diamond tools without any added substances to ensure a shine that will last a lifetime.
